

Rollin™

PC Resil

Applications:

Sheetfed, Coating, Continuous Forms

Adhesive-backed Coating Blanket

For use with aqueous and UV coatings.

Quality and Versatility

Built with a strong, proven, fabric-based compressible carcass. The blanket is bidirectional for maximum use.

Allows Deep Stripping

PC Resil blankets can strip away at the compressible layer for clean, reliable cutouts by hand or CAD systems.

Technical Details

COLOR:	Blue	INK COMPATIBILITY:	Aqueous & UV Coatings
SURFACE:	Buffed	BLANKET CONSTRUCTION:	Compressible
AVAILABLE THICKNESS:	.037" ± .001" (0.94 mm ± 0.02) .041" ± .001" (1.04 mm ± 0.02)	HARDNESS:	77 Shore A
