

Strippable

Applications:

Sheetfed, Packaging, Coating

Smooth, Cast Finish Prevents Streaking

The cast finish transfers coatings uniformly and allows excellent sheet release, even with matte coatings.

Ideal for Spot or Flood Coatings

Uniquely engineered to deliver excellent results with inline units using varnish or aqueous coatings.

Generous Relief with Consistent Edge

The top layer can be easily stripped away by hand or CAD equipment to a .040" relief (4 Ply) with no risk of stencil lift or separation.

Technical Details:

Color: Green

Hardness: 70 Shore A

Blanket Construction: Closed Cell Compressible

Surface: Cast

Water & Solvent Protected: Yes

Gauge Specifications:

.067" ± .002" (1.71 mm ± 0.04) 3 Ply

.077" ± .002" (1.96 mm ± 0.04) 4 Ply
